Livestream

The SGI Technology Department will be utilizing our HUDL gym camera system to stream today's show. As it is the first time this system will be utilized for a guard show, there may be glitches as we learn. The camera is permanently mounted on the back field side of the gym and therefore can only provide a rear view. Due to licensing restrictions this is a livestream only and will not be available after the show ends. You may elect to have someone from your guard record your show from the frontside bleachers.

The livestream link is available on SpringvilleGI.org and clicking **LIVE STREAM** in the top right and then **VIEW LIVE STREAM** under Athletic Events.
